Learn this powerful [Fibonacci Retracement](#) method FREE that pulls 500+ pips trade! Try John Wilson's [Forex Supersonic](#) EA that makes \$36,063 per month RISK FREE for 60 days! In case you've missed out, I have been working on a brand new forex technology that is producing some serious profits on live accounts -- this DOES NOT work the same way as any other robot on the market and it's probably the reason why it doesn't crash and burn like everything else! Now, I am NOT telling you this because I am trying to convince you to buy it, as a matter of fact this robot is NOT for sale and it never will be! There are a few reasons for this:

1. It's so profitable that I simply cannot put it on the market for a price that reflects its REAL value (It's worth at least \$997.00 or more.. but who can afford that?). This means I would need to settle in sharing this with the rest of the world for the usual \$97 price tag and take the risk brokers adapting "against it", if too many people start emoting their pockets using this..

2. It would NOT be 100% fair to release it as my own, as the core technology behind it is based on another robot on the market that I have been using for a while and really liked, Forex Supersonic:

Now, keep in mind that I still want to have you, as my loyal reader, ripping the benefits of this powerful system, so I figured that the only thing that really makes sense for me to do is to offer it to you as a *FREE* bonus! So here's all the details on the robot (you will be shocked when you read about the powerful and smart technology behind it!) and the download link -- Just grab it now for *FREE* whilst you can and start making MASSIVE gains:

Forex expert John Wilson is GIVING AWAY his Forex Supersonic strategy right from this page: Yes, everybody seems to be "giving stuff away" these days...so here's why this is different: He's not just giving away some small "teaser" -- he's actually letting you download *everything* -- the entire strategy -- no strings attached.

It must be quite a strategy, too... because he's personally used it to average over \$36,063 a month over the past year and a half with it! Check out the video he's put up and download the free strategy here: Oh, and the *best part* is... it's NOT some fantasy "black box" strategy based on some science fiction like "artificial intelligence" (come on, who believes that hype anymore?)...

It's based on a PROVEN method used by real full-time forex day traders who count on the market to make a living (and a pretty darn good one): Check it out here (do it NOW while it's on your mind, or you might miss it)!
