Dean Gallagher: Few days ago we opened up the doors on The Red Phoenix, and the response was stunning. Within a few hours, we had over hundred people sign up for The Red Phoenix. I knew The Red Phoenix was going to be popular, but frankly, I was still shocked by that reaction. So this morning I just wanted to say "THANK YOU" for jumping onboard and for the faith you showed in Thomas, our team and I

My business is Fx Trading, and I love it.

However, I also love teaching people to make a living through forex trading. It brings me HUGE satisfaction when I can help people become independent with their trading. A couple of years ago, I saw that the FX market was the way to do that - the most effective and lowest cost way to build a serious trading business. So after many years of figuring it out through hard-won trial and error, I decided to start teaching what I learned. And I'm still pinching myself that I got Thomas to join in with me -his level of expertise is off the charts.

Bottom line, The Red Phoenix is going to help me HELP a whole lot more traders how to build their trading business. As I mentioned above, that brings me big-time satisfaction. So it ends up being a win-win for everyone. So in any case, I just wanted to thank you for jumping on board The Red Phoenix. It means a lot to me, and I know you're going to see amazing results. In case you have NOT joined The Red Phoenix yet, there's still room... though I don't expect it to last long:
